The width of the rake is shown in the last two digits: /36, /46, /60
 There are two rake models for most walk-behind mowers, 473 and 474. 473 have narrow channel spacing, 474 have wide.
 Heavy duty 60" rakes are designated with an "H" preceding Tire Rake model e.g. H474/60
Above mount bars and rake models assume machines without bagger/weights/third party accessories unless noted.
Models stated "with bagger" are considered OEM collectors, not third party collectors.
